Jahnavi Dantuluri

She/Her

BBA student at RV University with a focus on finance, complemented by hands-on experience across operations, financial analysis, and market research. I am deeply interested in integrating financial systems with technology to build structured, scalable, and impact-driven solutions.

My academic grounding in finance is strengthened by real-world application, most notably through my finance internship at Outlook Publishing (India) Pvt. Ltd., where I applied analytical thinking to structured financial tasks. Across roles in corporate, publishing, and community-driven environments, I have developed a balanced professional approach rooted in clarity, communication, and disciplined execution.

Experience

Client Order Coordinator

CSC Global

Jun 2025 – Present

Bengaluru, Karnataka, India | Hybrid

Currently working in a full-time operational role managing structured client order processes. Responsible for ensuring documentation accuracy, coordinating workflows, and supporting seamless execution across teams.

Key areas of exposure include operational systems, process discipline, and cross-functional coordination within a global corporate environment.

Finance Intern

Outlook Publishing (India) Pvt. Ltd.

Jun 2024 – Jul 2024

Bengaluru, Karnataka, India | Hybrid

Worked as a finance intern supporting financial operations and documentation. Applied analytical thinking to real-time business scenarios and strengthened understanding of financial workflows and reporting structures.

Developed practical experience in Excel-based financial tools and structured financial reasoning.

Market Research Intern

Art of Living

Jun 2023

Bengaluru, Karnataka, India | On-site

Contributed to market research initiatives and supported structured research documentation. Strengthened social listening, adaptability, and communication skills through field-based research exposure.

Seva Volunteer

Art of Living

Engaged in various community service initiatives including rural development, education support, and disaster relief efforts. Developed leadership, event coordination, and communication skills while fostering personal growth through mindfulness and structured discipline practices.

This experience reinforced my belief in combining financial awareness with social responsibility to create meaningful impact.

PiggyWise

PiggyWise is a concept-driven initiative aimed at making financial literacy engaging and accessible, especially for young individuals. It focuses on

building structured financial habits through interactive and intuitive digital experiences.

The mission is to design a platform that makes it easy for users to learn about money, discuss it openly, and track their financial journey with clarity and purpose. By combining user experience design, behavioral insights, and robust technology, the goal is to support micro-habits, goal setting, and progress tracking in a stigma-free and empowering environment.

The vision is to cultivate a generation that approaches money with confidence, curiosity, and clarity. Financial literacy should be proactive, inclusive, and human-centered — not reactive or intimidating. PiggyWise envisions financial education as a lifelong companion that evolves with the user and strengthens both financial capability and financial mindset.
